

RENEWABLE ENERGY SYSTEMS UPDATE

Venue: SmartLIFE Centre, Cambridge

Date: Thursday 1 October 2009, 1.15 pm - 5.00 pm

The renewable energy systems subject is very wide, technically complex and full of pitfalls for the unwary. Much of the subject is new and for many there is justified concern that we should know more before jumping in.

Knowing the ins and outs of the technology and the growing selection and availability of the various plant and devices is essential for building professionals who may specify and include products for their projects. This seminar aims to explain the more common forms of renewable and Low - Zero Carbon solutions for home owners, commercial and industrial businesses alike. It will also update those who came on our previous seminar with this speaker on 7 June 2007.

The afternoon will be split into two distinct halves:

- 1 Those Low-Zero Carbon systems relating to Heat Energy.
- 2 Those Low-Zero Carbon systems related to Electrical Energy.

The seminar will:

- confirm the importance of incorporating renewables into modern building designs.
- explore the opportunities for existing buildings
- provide an overview and explanation of the characteristics of each renewable energy technology now available
- include some basic technical understanding on how the technologies and plant works
- consider their suitability, their capabilities and their limitations
- aim to 're-align' a few myths that some may hold
- a look at some new products on the market and to the future
- recent research and feedback from completed projects

Speaker: Tony Almond BSc IEng, Planet Energy Solutions, Welwyn.

Fees: RIBA Members £62 + VAT Non-RIBA £70 + VAT
 Reduced Fee £46.50 + VAT applicable only to CPD Subscription members

This event qualifies for 3.5 hours CPD (up to 28 points) - certificates of attendance will be issued.
 Cancellations: Refunds/credits will be given for all cancellations received in writing not less than ten days prior to the seminar. Credits must be used within six months. Substitutes are accepted at any time. We reserve the right to cancel any event if there are insufficient delegates, in which case full refunds will be made to those who have already paid.

Booking Form – RENEWABLE ENERGY SYSTEMS Update, 1 October 2009

	No.	Fee	Total
RIBA Members		£72.85 (£62 + VAT)	
Non-members		£82.25 (£70 + VAT)	
CPD Subs Members		£54.64 (£46.50 + VAT)	
Subscription No			£
