For a Quick-Quote see the form over the page

With powerful New Mono Crystalline Q-Cells - 156 SunSlates™ deliver more power for your money than any other roof integrated PV product

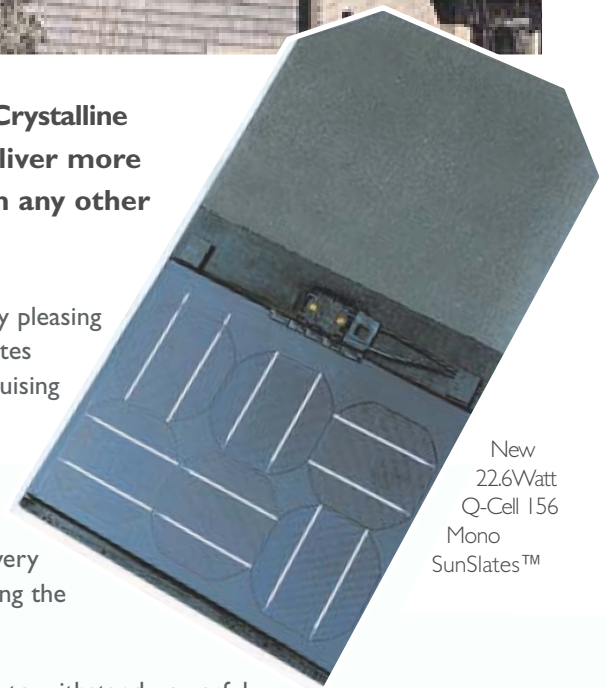

Beautiful - The most aesthetically pleasing PV roof product. The slate integrates seamlessly into the roof plane, disguising the solar Photovoltaic cells.

Easy to use - it is the most agile PV roof tile in the market. SunSlates™ can accommodate a very wide variety of roof shapes allowing the roof architecture to shape the PV.

Durable and longlasting - built to withstand powerful climate conditions including rain hail snow and high winds. SunSlates™ have also passed 125 mph Florida wind load test - and installations have even survived hurricanes

Sunslates™ offer the best warranty in the industry

- 25 years roof integrity warranty.
- 20 years PV power warranty.
